Vinification & Ageing

- FERMENTATION Traditional in oak barrels with complete malolactic fermentation
- AGEING 8 to 10 months ageing in oak barrels, 50% new
- BARRELS Louis Latour cooperage, french oak, medium toasted

Description

Situated just south of Volnay and Pommard in the Côte de Beaune, Meursault is the most extensive southerly white wine commune of the Côte-d'Or. Meursault "Goutte d'Or" is the first Premier Cru found when leaving the village in the direction of Puligny-Montrachet. The parcel of vines was given this name ('drop of gold') because of the quantity of flint in the soil. These flints have both the shape and colour of 'drops of gold'. Entirely like the drops of wine which this land produces! The wine itself is as one would expect it to be with a powerful nose and rich palate. The wine preferred by Thomas Jefferson.

Wine tasting

- TASTING NOTE The name of this Meursault is reflected by its striking golden hue. It has delicate, youthful fruit aromas evoking blackcurrant buds and lemon. Typical Meursault hints of nuts combine successfully with minerals and oaky vanilla. The acidity is balanced and the full body sublime. This is a great wine with plenty of ageing potential. Tasted 22/01/03.
- CELLARING POTENTIAL 5-7 years
- FOOD PAIRING Vol-au-Vent - rump of veal - freshwater pike - morels - cheese.
- SERVING TEMPERATURE 12-14°
